

**Dear ERGO, do
you have space for
me to continue
expanding my skills
and experience?**

You can depend on that! At ERGO, you will find a wide range of areas to which you can contribute all your expertise and in which your potential will find the freedom you desire. At ERGO, one of the largest insurance groups in Germany and Europe, you will find a dynamic environment and challenging tasks in a wide variety of projects, giving you the opportunity to grow further. Break new ground with us! Our common goal: to offer our clients exactly what they need.

For our location in Munich we are looking for you as

Senior Actuary (m/f)

Your Tasks

- Lead development and deployment of Pricing best practice
- Provide advanced actuarial expertise to local entities on behalf of the Health Products & UW and the Health Portfolio Management Function
- Supervise the development or procurement of Tools and monitor implementation success
- Ensure advanced technical input to global and local product development initiatives
- Support reserve setting and risk capital model governance in the Group
- Provide Analysis to assess reinsurance strategy and -optimization
- Support technical reviews and provide actuarial peer reviews

Your Profile

- University degree with strong mathematical background, Actuarial qualification, ideally 10 years of relevant work experience
- Deep understanding of health products and medical / claims specifics and similar to life techniques in health insurance
- Profound knowledge about relevant accounting standards, IFRS and Solvency II
- Strong project management expertise, high degree of self-steering and business mindedness
- Strong in communicating and convincing

Interested?

If so, you can look forward to first-rate training and plenty of attractive employment benefits, including subsidised travel and an outstanding sports programme. Please apply **online**.
