- When you find solutions where others only see obstacles

## PRICING ACTUARY

### LIFE AND HEALTH CLIENT PRICING <sup>(M/F)\*</sup>

IN THE COUNTRY AREA OF CONTINENTAL EUROPE, ISRAEL AND BARBADOS

In the Client Pricing unit we take care of life and health insurance in the diverse, exciting and demanding markets of Germany, Switzerland, Austria, Central and Eastern European countries, the Netherlands, the Nordics, Barbados, Israel, France, Belgium, Luxembourg, Greece, Cyprus and Turkey.

The core tasks of the client pricing unit include the pricing of reinsurance contracts, biometric studies, assessment of all qualitative and quantitative aspects, product development, data analytics, monitoring, planning, valuation, Solvency II and IFRS aspects.

The Client Pricing unit ensures a holistic client team approach together with the Client Management team to effectively support the region's acquisition and maintenance of reinsurance business. Achieving these goals requires close cooperation between the Client Pricing unit and a wide range of internal departments.

We are looking for a highly qualified and motivated employee as Pricing Actuary for a part of the respective markets.

#### YOUR JOB:

- Providing technical support for clients and a proactive and goal-oriented collaboration with the Client Management team, in particular supporting their efforts in acquiring profitable new business and managing the in-force
- Carrying out derivation and updating pricing bases (if possible, on the basis of biometric studies)
- Structuring and pricing reinsurance treaties
- Advising on possible options for the optimal reinsurance solution for Munich Re and the client
- Ensuring compliance with applicable guidelines, risk appetite and mandates
- Supporting product developments in close cooperation with the Business Development unit
- Executing data analytics projects
- Assisting the monitoring, accounting, valuation and forecasting of the new and existing business, including data management for portfolio data and interface to Accounting, Valuation and Center of Competences.
- Analyzing current developments in life insurance markets and their implications for Munich Re and our customers
- Executing risk management processes

#### YOUR PROFILE:

- University degree (with high marks) in statistics, mathematics or actuarial sciences
- Actuary or nearly qualified with life and/or reinsurance experience
- 2+ years of experience in actuarial primary and/or reinsurance units
- Experience in pricing or valuation
- Experience in data preparation, ideally expertise in R and Power BI
- Affinity for communicating with internal and external contacts
- Autonomous working style and ability to prioritize
- Highly dedicated and high sense of responsibility
- Excellent interface management and strong team-oriented approach
- Analytic and conceptual thinking combined with thorough and systematic work approach
- Ability to think entrepreneurially, and to recognize and take into account overall relationships
- Strong command of German and English (written and spoken). Other European languages would be an advantage

Munich Re is one of the world's leading reinsurance companies with more than 11,000 employees at over 50 locations around the globe. We are working on topics today that will concern the whole of society tomorrow, whether that be climate change, major construction projects, gene technology or space travel. We find solutions to these challenges through a network of highly qualified professionals who anticipate risks, work on tailor-made solutions and expertly advise our clients. If you want to help shape the future as part of one of our teams, we look forward to hearing from you. Please click on the link to apply online.
