

Turn expertise into excellence

Actuarial Consultant (m/f)*

for the Analytics Section of Corporate Insurance Partner

Location
Munich

Corporate Insurance Partner (CIP) writes global industrial insurance business, with a focus on the Fortune 5000 segment. CIP offers both standard and innovative risk solutions for property, energy, casualty, engineering, special enterprise risks, and cyber businesses.

The analytics section is a team of quantitative specialists involved in business management and reporting, actuarial methodology, IT consulting, individual pricing, and accumulation control. Consequently, it has a significant impact on the development of CIP. We are looking for a specialist to take on the following tasks:

Your job

- Developing and enhancing the pricing methods, guidelines, and rates used in CIP
- Supporting the underwriting units in price calculations for individual, complex risks
- Running, supporting, and improving the facultative reporting tools developed by the team in cooperation with external software developers
- Consulting CIP and global MR key users using these IT tools
- Analyzing complex relational databases using MS Access and SQL
- Undertaking portfolio analysis for business management purposes and making recommendations for underwriters and managers
- Advising and reporting on other analytics topics, e.g. accumulation management (budget topics and loss-impact analysis)
- Supporting and driving CIP's data analytics projects

Your profile

- Degree in mathematics or similar qualification
- Affinity for IT, preferably with experience in requirements engineering, relational databases, and/or application development
- Ideally experienced in insurance and reinsurance
- Knowledge of actuarial pricing methods (or willingness to learn)
- Analytical strength and a pragmatic, problem-solving approach
- High degree of personal commitment
- Fluent business English

About us
