## Senior Actuary (m/f/d) Pricing

### Job Purpose/Role

Within Allianz Partners, Allianz Automotive is the leading strategic partner of automotive manufacturers in the provision of insurance and mobility solutions, currently managing more than 40 car brands in more than 30 countries. Automotive manufacturers and financial services can choose from a portfolio of customized products and service solutions in the fields of new mobility, classic motor insurance, warranty, assistance and ancillary products. The Actuarial Team of our Product & Underwriting function is responsible for Automotive portfolio management, technical pricing for new mobility solutions & related products, analyzing profitability, assisting with underwriting & pricing of reinsurance business, ensuring technical excellence & state of the art tools and providing actuarial consulting.

We are looking for a talented, highly motivated and ideally internationally experienced Senior Actuary (m/f/d) driving our efforts related to pricing new mobility business segments and supporting portfolio management, with a special focus on new mobility solutions.

### Key Responsibilities

As Senior Actuary you will support the actuarial team and drive our activities related to:

- Development of innovative and state of the art pricing solutions, in particular for new mobility topics (e.g. shared, assisted or autonomous mobility)
- Development and valuation of customer centric remediation measures of automotive portfolios
- Support of Technical Pricing and Underwriting for New Mobility, classic Motor and Fleet products
- Standardized actuarial models and tools used by underwriters for commercial delivery of mobility solutions
- Technical Excellence and enhancement of our existing data & future analytic tools and methods
- Developing and sharing of best practices among Allianz entities in motor & new mobility topics
- Actuarial consulting during development of non-standard product, coverage or premium solutions

### Key Requirements/Skills/Experience

Qualifications:

- University degree in mathematics, statistics or similar professional experience
- Minimum 5-7 years of relevant professional experience
- Completed actuarial qualification and strong actuarial track record
- Excellent verbal and written English required; German or other foreign languages are advantageous
- Proficient user of Microsoft Office packages (Excel, Word, PowerPoint) and other relevant software
- Profound knowledge of and experience with actuarial tools such as SAS, R or Python

Experience & Key Skills:

- Experience in Retail and/or Commercial Motor technical pricing and product delivery

- Knowledge of international motor insurance markets and their products is beneficial
- Excellent analytical, conceptual and problem solving skills
- Highly developed interpersonal skills (e.g. communication and presentation)
- Proven track record as data analyst or data scientist is a plus
- Good financial accounting expertise and knowledge of international motor market is a plus
- Ability to take over responsibility and work independently, creatively and flexibly within cross-functional and agile teams
- Experience in working in a fast-paced, dynamic and international environment

#### **Additional Information**

Please note that the mandatory application document is the CV, all other files such as Cover Letter for the position, University Transcripts, Diploma and Employer Testimonials/References are advisable and desired by the Hiring Department for a more comprehensive application assessment.
