

The multimedia studio at the DAV

Video productions

Live streams

Image films

and more

Welcome to the studio of the Deutsche Aktuarvereinigung e.V. (DAV) and Deutsche Aktuar-Akademie (DAA), the multimedia production facility for the actuarial profession, the finance and insurance industry and associations and societies in Cologne and the surrounding area.

The premises offers flexible video sets with a full live control room and a spacious guest area, which can also be used for photo shoots and seminars. We offer a wide range of setting and layout options for large and small recording projects (greetings and addresses, presentations, panel discussions etc.) through to live stream productions lasting several days with on-site and remote speakers.

Supported by the AMC – Actuarial Media Center team, all video and event projects are professionally planned, produced and finalized throughout the media production process.

The technical set-up:

- 2 settings for 2-4 people each standing and sitting (adjustable layout, additional decorations are optional)
- 4 remote-controlled cameras
- Sound mixer and 4 clip-on and 1 handheld microphone
- Lighting system with studio lighting and color spots
- Recording & live streaming software; video editing
- Versatile software package with additional features for smooth production (preview monitors, clicker, speaker countdown, tablet control)
- Videos calls via Zoom
- Mobile video set for making-of recordings
- Guest room with program screen and make-up area; catering possible

**Interviews
&
panel discussions**

**Presentations
&
Greetings**

**Image films
&
stories**

**Live-streams
&
events**

**Seminars
&
trainings**

**Photo shoots
&
more**

**Prices are based on length and complexity of the projects including set-up and preparation times as well as additional services such as editing, scripting, graphic design, make-up, catering, etc.*

Since the studio opened in February 2024, numerous projects have already been carried out for the German and international actuarial community:

- Live production of CONVENTION A | Europe (2 days)
- Digital press conferences of DAV and IVS
- Recording of a video series of the DAV Investment Committee "DENK SICHT"
- "Sustainability im Fokus" - highlight event of DAV and DAA (1 day)
- Further recordings for the specialist committees of the DAV

In addition to our own professional associations and academies, our studio services are also available to other associations and companies. Our many years of experience in member and stakeholder communication offer a special added value for the target group-specific development of all multimedia productions and formats.

Pressure on Social System

Adequacy of Pillar 1 - public pension spending in % of GDP

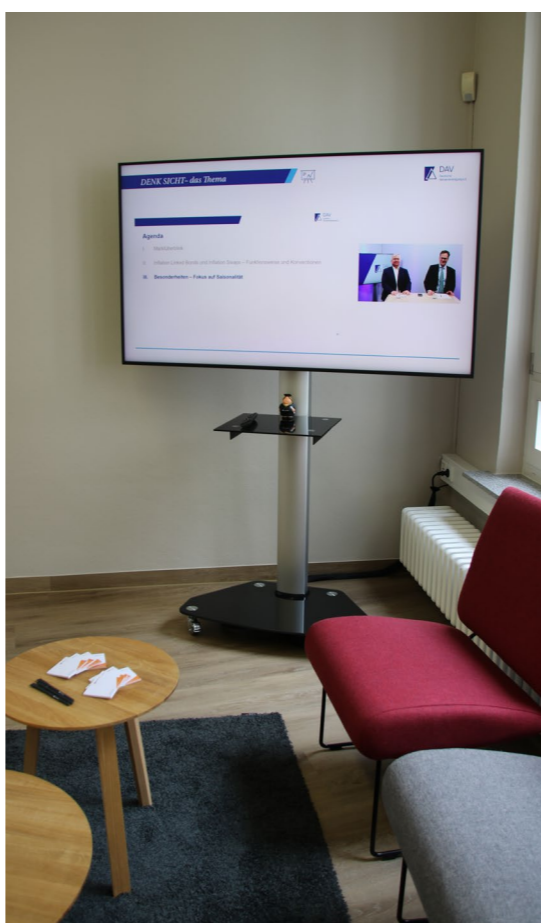

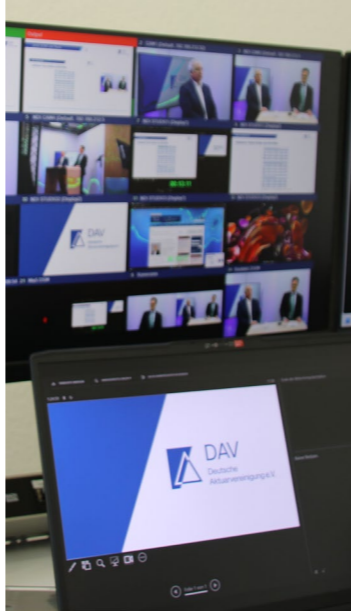

- according to OECD data public pension spending varies from 5% (NL, UK) to around 15,9% (GR, IT) in 2019.
- average 7,7% for OECD countries

Increasing importance of supplementary pensions plans (Pillar 2 and Pillar 3)

Countries across Europe show big variety of Pillar 2 plans

- In some countries the pure DB occupational schemes have a long history and still prevail; trend of switching from DB to DC;
- In others – the supplementary DC plans have been set aside under a specific regulation during the last 2 decades.

AAE at CONVENTION A | EUROPE - March 20, 2024

Also 2024 is on a record warming track so far
